

IMPORTANT INFORMATION

WARNING!

These binoculars comply with the following regulations for laser class 1 M of the valid standards EN 60825-1 or IEC 60825-1 or FDA21CFR 1040.10 and 1040.11, with the exception of certain deviations in accordance with Laser Notice No. 50, dated June 24, 2007. The device is therefore classified as eye-safe and can be used accordingly. However, targeting people directly is not permitted.

FCC Declaration of Conformity

The binoculars have been carefully tested and subsequently found to be compliant within the limits of a Class B digital device in accordance with Part 15 of the FCC Rules. The limits are designed to protect against harmful interference in a residential installation. These binoculars generate, use and transmit radio waves and, if not installed and used in accordance with the instructions, may cause harmful interference to radio transmissions. However, there is no guarantee that interference will not occur in some installations. If the binoculars cause harmful interference to radio and TV reception that cannot be confirmed by turning the affected device on and off, the user has the following options to eliminate this interference:

- Reorient or relocate the receiving antenna
- Increase the distance between device and receiver
- Contact the dealer or a professional radio/TV technician
